COURSE DESCRIPTION

Owning or managing a business can be a dream come true. However, a business can become so "noisy" with all of its issues that the business can actually end up owning you. Larry G. Linne, ex NFL football player and President of an international business consulting organization [Sitkins International] recently wrote, "Make the Noise Go Away - The Power of an Effective Second in Command." The book discusses valuable principles that can help business owners reclaim their freedom.

Larry has a passion for improving the relationships between leaders in an organization. Ken Blanchard, co-author of The One Minute Manager, says in the book's forward: "That's why I am so excited to introduce Make the Noise Go Away: The Power of an Effective Second in Command - because Larry Linne has put into words what I have discovered through experience."

Bring your second-in-command for an evening of discovering how to effectively "Make the Noise Go Away."

Larry will sign your complimentary book during the reception.
