

■ WORKERS COMPENSATION HIDE & SEEK HIDDEN EXPOSURES

SPEAKER

Jodi Mathy, Post Loss Specialist
HNI Risk Services, Inc.

WHO SHOULD ATTEND

Human Resource Professionals, Risk Managers and other professionals directly involved in managing workers compensation claims.

COURSE DESCRIPTION

Do you feel like you are playing hide and seek when it comes to finding your workers compensation exposures? You teach your employees how to lift properly and provide them with personal protective equipment, but how many times have you been surprised to learn that a claim is covered under the Wisconsin Workers Compensation Act when in your mind it should be denied?

For example, do you think a claim would be covered if two employees were fighting in your shop? Do you think that an employee can receive increased compensation because

of the actions of their supervisor? If an employee is driving in a company vehicle from their home to a worksite and gets into an accident, should they receive workers compensation? We will explore the answers to these questions and more to uncover what may be hiding at your organization.

In this interactive webinar we will explore several unique conditions under which your workforce may make a claim for workers compensation. We will talk about real life scenarios and their outcomes. You will learn how to turn a more critical eye toward your organization and better manage the risks and claims that can come from hidden exposures.

TOPICS COVERED

- Unique conditions for work comp claims
- Strategies to avoid claims
