

SHIFTING GEARS TO CSA 2010

IN DEPTH CSA 2010 TRAINING

SPEAKER

Jeff Davis, JET Express
Drew Anderson, Vigillo

WHO SHOULD ATTEND

Risk Managers and Safety Directors responsible for evaluating and maintaining acceptable scores within the FMCSA system.

COURSE DESCRIPTION

Do you know what a DCH is? Are you aware it is currently used in your ISS-D calculation in SafeStat? Is FMCSA planning to use the DCH in CSA 2010? Are you tired of CSA 2010 seminars that only give you brief overviews? We have a solution for you. Attend our live event to hear one of the most well know experts on CSA 2010, Jeff Davis. Mr. Davis will explain everything you wanted to know about CSA 2010 but were afraid to ask and will share with us what you aren't hearing in the overview seminars. With rollouts starting in July, we chose this June date so that we can give you the latest information and legislative updates with regards to CSA 2010.

TOPICS COVERED

- The Non-Delegable Duties of Compliance
- The Motor Carrier's "E-Perception of Safety"
- The Fundamental Concepts of CSA 2010
- Interventions
- Safety Fitness Ratings
- Fleet Management Solutions
- Vigillo Software Program Using FMCSA Data

DETAILS:
